PRODUCT OVERVIEW

Deliver 8K or even 4K with a great performing cable. These cables offer a premium quality abrasion-resistant, high-temperature PVC jacket for maximum durability, as well as low loss foam-skin polyethylene dielectric for maximum signal transfer and superior picture quality. The HDMI® Ethernet channel allows you to support a wide range of IP-enabled devices without the clutter caused by the additional network cables, eliminating the need for separate Ethernet cables to enjoy high-speed, bi-directional networking with speeds up to 100 Mb/sec. All MHX Series cables are DPL certified and come with a lifetime warranty.
